

Beacon Life

“

I have learnt how to manage my money and manage my future. I really enjoyed the day, not expecting it to be such fun and would do it all again.

”

Student, Secondary School in Bushey

Beacon Life is a highly interactive team based event which allows participants to develop the life of their chosen virtual 'character' looking at their personal finances, options for saving and borrowing and aspirations for the future.

- Working 'hands on' in terms of key decisions for their 'character', participants learn how to assess their own financial situation and aspirations for the future
- Every round explores a different aspect of financial planning such as budgeting, evaluating information, taking financial decisions and presenting their plans
- Through careful analysis of financial options, participants will become more informed and confident consumers of financial products
- Ideal for students planning to go to College/ University or those who find it difficult to manage their own finances

www.wenta.co.uk

Beacon Life can be a ½ or one day event hosted by you or run at one of our own Business Centre's. The programme has been 'mapped' to many qualifications and credits can be gained towards Foundation Learning Qualifications, level 1 & 2.
